FISH EAGLE SWIMMING CLUB MISSION STATEMENT

Fish Eagle Swimming Club (FESC) promotes and fosters the sports of swimming, diving, life saving, synchronised swimming and the game of water polo, in the uThungulu District of KwaZulu-Natal, without discrimination on the grounds of age, race, religion or political affiliation.

Our club realizes the importance of healthy competition, and focuses on the development of aquatics as a sport. The uplifting of the previous disadvantaged children lies close to our hearts and the opportunity of partaking in such an event forms part of our belief system.

Although limited in resources FESC, albeit small in size is big in heart, the officials, swimmers, parents and coaches are devoted to excellence and through close attention to our swimmers' needs, we strive for the highest quality personalized service.

FESC supports existing and actively drives new ideas, and initiatives within the sport of aquatics as well as in matters affecting our community. Through active and positive participation FESC strives to sensitize its youth by not only creating awareness, but also assisting in finding solutions and making them part of the drive to enable these solutions. At FESC we strive to do as much as we can to form positive, responsive and rounded young sports men and women.

VISION STATEMENT FOR "FESC SHORT COURSE CHAMPS"

Fish Eagle Swimming Club

SHORT COURSE CHAMPS

~ 26th September 2015 ~

“To shape the future of swimming in the uThungulu District by hosting swimming and other aquatic discipline meets and competitions throughout the year. Allowing both social and competitive interaction between athletes and offering a platform for them to be able to raise their levels of performance in their chosen aquatic disciplines to facilitate swimmers to receive times for SA Level & National Galas in March/April 2016.”
